INSTRUCTIONS

The period from Monday, May 3 through Thursday, May 13 has been set aside for Advance Registration.

Please read the following instructions carefully so that you will understand how to register for next semester and note that the instructions are divided into four sections. The four sections will help you complete the registration process successfully.

1. Contents of advance registration packet
2. Format of schedule book
3. How to fill out your registration forms
4. Miscellaneous information

Contents of Advance Registration Packet

1. Advance Registration Forms with Alternate Course Requests-

   Each student is given forms on which to advance register so he/she may have the option of utilizing up to 2 alternate choice requests.

2. Free Time Request Form

   These forms are again being used this semester so that students may indicate particular hours during which they do not wish classes to be scheduled. The markings on the forms are read by machine. This means that they must be completed carefully — no erasures, no stray marks, no folds, etc.. To insure that the information can be interpreted. It is essential that a No. 2 pencil be used to fill in the slots corresponding to the times and days of the week during which you DO NOT want classes scheduled. Please try to use extra care with these forms.

   Use of these forms may limit your chances of obtaining a full schedule. They do not enhance your chances of receiving the section that you request. They do, however, limit your ability to obtain a course because you will not be assigned to sections that meet at hours from which you have exempted yourself.

3. Semester Schedule Booklet

   A list of courses that will be offered in the Fall 1982 semester. You should choose your program for next semester from this booklet in consultation with your advisor.

4. Addenda

   A list of changes made to the semester schedule booklet.

5. University Course Listing

   This is the complete listing with descriptions of the courses and requirements of the University.

Format of Schedule Book

1. Course selections must be made from this schedule booklet and the addendum list. Please do not select courses from this book without checking the addendum as changes have been made.

2. Building Notation

1 - 010 Building		HuntCamp- Huntington Campus
2 - 020 Building		
8 - Science Building		
HLY - Joseph Healy Library		
PS - Park Square		

3. Time Notation

18.45 = 6:45 p.m.
19.00 = 7:00 p.m.
20.15 = 8:15 p.m.

Return Cards to the Proper Office by May 13, 1982

CAS students return cards to the Registration & Records Office, Harbor Campus
CMPS students return cards to the Registration & Records Office, Harbor Campus
CPCS students return cards to the office of Academic Affairs, Rm. 406A

How to Fill Out Your Advance Registration Forms

1. Be sure that all numbers are penciled neatly and completely. Double check to see that entries are accurate. If a number is incorrect or illegible or not blocked in totally, the entire transaction will be invalidated.

2. Use the 6 digit schedule number assigned to the specific section at the specific time you wish to take the course (see example 1 below).

DEPT.	COURSE SECTION	SCHEDULE NUMBER	TITLE MEETING TIMES	BLDG. FLR RM.	CR	INSTRUCTOR
P-H-I-L-O-S-O-P-H-Y						Example 1
			Intro Philosophy			
PHIL	100		TUTH 9.30-20.45	1-1-054	04	Foster
	1	146301	MWF 9.30	1-1-054		Andic
	3	146327	TuTH 11.00-12.15	1-1-054		Foster
	7	146343	MWF 10.30	1-1-054		Andic

3. When advance registering for a course with 2 or more parts (lect., lab.) be sure to include all parts or you will arbitrarily be assigned the missing portions (see example 2 below)

C-H-E-M-I-S-T-R-Y						Example 2
			PHYS 7 Anal Chem 1			
Chem	241		MWF 9.30	8-2-065	04	Schwartz
Lec	1	069096	Tu 9.30-12.30			Gelb
Lab	1	069119	Tu 9.30-12.30			

4. Alternate Choice

Some choices are listed with the notation 'alternate choice advised'. This is used for courses which in the past have been consistently overenrolled. This does not mean you cannot request one of these courses, only that you would be well advised to consider making an alternate choice along with this request. It would also be helpful to use the 2 alternate choices whether or not it is specifically advised as their use enhances a student's possibility of obtaining courses. Alternates must be a different course -- not a different section of the same course. (see example 3). For example: Alternate 1 will be considered only if course request 1 cannot be scheduled. Similarly, alternate 2 will be considered only if course request 2 cannot be scheduled. Alternates are not transferrable from one choice to another.

P-S-Y-C-H-O-L-O-G-Y

Example 3

PSYCH	245		Educational PSYCH Alternate Choice Advised			
		NOTE				
	2	161157	TUTH 11.00-12.15	2-1-608	03	Osherson
	4	161173	MWF 11:30	2-1-608		

After discussing your schedule with your advisor, have him/her sign the advance registration form. All forms should be signed by an advisor and returned to the proper office.

University of Massachusetts at Boston

Miscellaneous Information

1. CAS and CMPS part-time students will be billed by the credit.

2. All advance registration forms are processed at the same time. You have time between May 3 and May 13 to consult with your advisor and to fill in your cards carefully. There is no advantage to getting your cards in early; just be sure to return them to the proper office.

3. Use #2 pencil for all forms.

4. Students will receive a confirmation of their shcedules during the second week of July.

5. Special Add/Drop Day - August 30 - September 10

6. First Day of Classes - August 31, 1982

7. The Hebrew College Exchange Program will again be offered for the Fall semester. Credit for all courses will be accepted at UMB toward graduation. For further information contact Ellen Manganiello in the Registrar's Office.

INSTRUCTIONS

Using #2 pencil, fill in one block (minimum) for each COURSE or Specific SECTION. Up to three blocks may be needed if specific sections of a course with lecture, lab and/or discussion portions are stipulated. Confine marks to designated positions. Do overlap marked positions.

Blocks eight and nine may be used where the Schedule Booklet indicated "alternate choice advised" because of frequent over-subscription. Otherwise, regular choices can be entered in eight and nine.

If one of these forms cannot describe the particular configuration of your course choices, a second form with additional information may be filed.

Carry completed form to the Appropriate Office

EXAMPLE OF A COMPLETED REGISTRATION FORM

Please note that Mr. Smith does not want to be scheduled into any evening courses if the sections that he initially requested are filled. If you want to insure that you are not assigned times for courses that you will not accept, please take care in filling out the forms correctly.

COLLEGE OF ARTS AND SCIENCES
COURSE LOAD POLICY

First semester Freshmen may enroll for no more than four (4) courses or sixteen (16) credits.

Freshmen in their second semester and Sophomores may enroll for no more than four (4) courses or sixteen (6) credits. These students may however, take one (1) additional course under the following conditions:

A. The student's overall grade point average is 3.0 (or above) or the grade point average for the previous full-time semester is 3.5 (or above).

AND

B. Written permission is secured either from the student's faculty advisor or from those the Dean of the College has designated (Associate/Assistant Dean for Academic Studies).

Juniors and Seniors may take no more than five (5) courses or fifteen (15) credits but may take one additional course under the same two conditions that apply to second-semester Freshmen and Sophomores.

IMPORTANT

Many CAS courses that were 4 credits have now been changed to 3 credits. Please, when registering for a CAS course, check the credit awarded for each course.

IMPORTANT NOTICE FOR THE FALL 1982 SEMESTER

Registration for all students will be held from May 3 through May 13.

All continuing degree students must register during this period or they will be assessed a $25.00 late registration fee.

N O T I C E

C.A.S. Writing Proficiency Requirement

All CAS students who entered as freshmen in the fall of 1978 or thereafter and all students who entered as transfers in the spring of 1979 or thereafter must meet a writing proficiency requirement. All these students must pass a writing proficiency exam or submit a satisfactory portfolio. Students must complete this requirement prior to earning 60 credits; students who transfer 60 or more credits must meet the requirement no later than the end of their first semester in residence. For students who do not meet this requirement registration for courses will be invalid.

For more information about the CAS Writing Proficiency Examination and Core requirements see the following pages. If you have any questions contact the Office of Academic Support and Advising (020-3-625, ext. 2851).

NOTE: For new CAS Core Requirements see next page.

Advising during Advance Registration for CAS Students

All students should see their advisors during the Advance Registration Period to discuss their programs of study and to have their forms signed.

Students who are ready to declare a major but have not yet done so must pick up declaration cards at the Registrar's Office. An advisor will be assigned by the major department.

All CAS students must plan their schedules and receive written approval of the schedule from a faculty advisor.

Undeclared majors must pick up registration materials in the 020 Lounge (3rd fl.) on Monday, May 3 (10-12; 2-6) or Tuesday, May 4.

Faculty advisors will be available in the 020 Lounge according to the following schedule:

Tuesday, May 4, 10am - Noon
Wednesday, May 5, 2pm - 6pm
Thursday, May 6, 2pm - 6pm
Friday, May 7, 10am - Noon

Monday, May 10, 10am - 1pm
Tuesday, May 11, 2pm - 6pm
Wednesday, May 12, 10am - 6pm
Thursday, May 13, 10am - 6pm

The Office of Registration and Records will not accept registration materials of CAS students unless the registration form is signed by an advisor.

CAS STUDENTS
OLD REQUIREMENTS CORE I

Each student is required to take two semesters of writing, normally during the freshman year. In addition, each student must take a distribution pattern consisting of twelve courses from among the following six areas.

A. Historical and cultural studies
B. Foreign language
C. Philosophy, the Arts, Literature
D. Mathematics, Computer Language, Statistics
E. Natural Sciences (Biology, Chemistry, Etc.)
F. Social and Behavioral Sciences (Psychology, Anthropology etc.)

In fulfilling the distribution pattern the student has several options:

A. Choosing two courses from each of the six areas
B. Choosing two or three courses from <u>at least</u> four areas. And one or two courses in other areas. As necessary, to bring the total to twelve.

No more than three courses may be allowed towards the core requirements in any one area. In the case of Foreign Languages, intermediate proficiency is satisfied either by examination (given by the department in question) or by successful completion of a foreign language course at the 200 level. Intermediate proficiency satisfies three of the twelve distribution courses. A student who does not achieve proficiency may offer only the courses taken in <u>one</u> foreign language in satisfaction of the distribution requirements.

OLD REQUIREMENTS CORE II

A. Two courses in writing to be taken the freshman year. The requirement can be met by taking English 101 and 102.

B. Three courses in the social sciences of which at least one must be in History and one in another discipline (i.e. Psychology, Economics, Politics, Anthropology, Sociology).

C. Foreign Language: Two years (introductory and intermediate level)

1. Students who demonstrate proficiency in foreign language at the intermediate level are exempt from the language requirements. (Foreign students whose native language is not English are also exempt from this requirement).

2. Students who have successfully completed two years of a foreign language in high school or who otherwise demonstrate elementary proficiency in foreign language can take two semesters of a foreign language at the intermediate level or two semesters or a foreign literature in translation (these courses are offered under the language departments). Please note that the classics dept. also offers literature courses in translation.

3. Students without previous training must begin a language at the elementary level. However, they can still substitute literature in translation courses for the intermediate level. (Students <u>with</u> previous training may,if they wish, also begin at the elementary level).

4. Students must take three semester courses in the Natural Sciences or in Math of which at least two courses must be taken in the same discipline, and at least one in a Natural Science.

THE NEW CORE CURRICULUM

The CAS Senate has established a Core Curriculum which will constitute and rationalize approximately one third of the student's total academic program, and complement the student's concentration in one field or discipline of study with a general, coherent exposure or introduction to the several areas and disciplines into which liberal learning is organized.

Liberal learning--the kind of learning that broadens awareness, deepens understanding, poses alternatives, and informs vital decisions--may be divided into seven broad categories, each of which represents a way of understanding and evaluating the world. Sometimes these ways help or complement each other and sometimes they diverge from or question each other. We make a distinction between five core areas and two core disciplines. I. Historical and Cultural Studies concern the reconstruction and interpretation of human past and seek to understand the world even in non-literate cultures. II. Philosophical and Humanistic Studies focus on the analysis of concepts and values, social, ethical, religious, and cognitive, and interpret the world through the critical application of such concepts and values to experience. III. Social and Behavioral Sciences--such as anthropology, economics, psychology, politics, and sociology--analyse the world in terms of structures and processes of behavior, of social interaction and institutions. IV. Natural Sciences seek an experimental understanding and application of the laws that explain natural phenomena, and approach the human world through a study of its natural elements, structures and processes. V. The Arts approach the world through an awareness and use of forms of creative expression such as music, drama, literature, painting, sculpture and architecture. The two Core Disciplines are Foreign Languages and Mathematic and Computer Languages. VI. Foreign Languages provide an understanding of human thought, feeling and culture through a study of the structures, meanings, functions, and development of speech; the study of a language not one's own improves mastery of one's own language and contributes eventually to the understanding of another culture. VII. Mathematics and Computer Languages exhibit self-enclosed symbolic systems whose analytic pleasures and practical uses extend our sense of the nature and processes of human thought and the manageability of reality. All seven are components of a liberal education. One is not liberally educated without a basic sense of what they are, how they work, and how they may relate to each other.

NEW CORE CURRICULUM REQUIREMENTS

All students entering the College of Arts and Sciences in the Fall of 1979 and thereafter must meet the following requirements:

I. 1 year of Freshman Writing (or gain a waiver by Placement examination)

II. 12 core courses selected from the following seven areas; in any one area, a student may count up to three courses, otherwise no more than two. 3 of the core courses must be at the intermediate level. (Core courses and core sections are designated by a "C" before the course number, i.e., ANTH C102.)

Historical and Cultural Studies
Philosophical and Humanistic Studies
Social and Behavioral Sciences
Natural Sciences
The Arts
Mathematics and Computer Languages
Foreign Languages (Students electing first-semester courses must complete two semesters in the same language.)

Any one of the following patterns will satisfy the core requirement:

Seven areas	Six areas
2, 2, 2, 2, 2, 1, 1	2, 2, 2, 2, 2, 2
3, 2, 2, 2, 1, 1, 1	3, 2, 2, 2, 2, 1

A student who presents evidence through placement scores or transcripts of intermediate proficiency in a foreign language or of work equivalent to College Calculus (MATH 140, 141) may waive the foreign language or mathematics portion of the core requirements or may substitute advanced courses for core courses. Students granted a waiver in foreign languages or mathematics need take only 10 core courses in the remaining six areas, only 1 of which need be intermediate; students granted two waivers need take only 8 core courses in the remaining five areas, none of which need be intermediate.

III. All students must pass the Writing Proficiency Examination or present a satisfactory portfolio of papers before the beginning of the Junior year (60 credits).

THE WRITING PROFICIENCY REQUIREMENT

Part of the Core Curriculum requirement is the demonstration of proficiency in writing. This must be done by the beginning of the junior year (at 60 credits). The requirement holds for all students who entered CAS as freshmen in September, 1978 or thereafter, or as transfer students who entered CAS in January, 1979 or thereafter.

Proficiency may be demonstrated either by passage of a special examination or submission of a successful portfolio.

The Writing Proficiency Examination

The examination is given four times a year. Dates are posted in the MASS MEDIA and in the Office of Academic Support and Advising (2-3-625). A student may sign up a month in advance of the scheduled date, and will receive the reading materials upon which the examination will be based. In order to pass the examination, the student must write an acceptable essay based on a question designed to elicit evidence of thorough understanding of the material read, as well as the ability to synthesize the material, draw inferences, and construct a well-organized response in good English.

Note that the Writing Proficiency Examination is not the same as the English Placement Test which all students take upon entrance to the College. The two tests are very different in nature and purpose.

The Portfolio

The Portfolio offers an alternative method of demonstrating writing proficiency. It may be submitted at any of the scheduled Examination times. It consists of four papers, each at least five typewritten pages in length. Three of these are expository papers, written for courses, and based upon reading materials. The instructor's assignment and affirmation of originality must be included in each case. The fourth paper is a new one, written on a topic and a series of readings distributed by the Office of Academic Support and Advising.

Students who have not satisfied the Writing Proficiency requirement by the beginning of the junior year will have curtailed schedules until the requirement has been satisfied. Complete details of the regulations are available in the Office of Academic Support and Advising.

QUESTIONS AND ANSWERS ABOUT THE NEW CORE CURRICULUM

1) Q. Which core requirements do I have to meet?

A. If you entered UMB before Fall, 1979, you must meet the old College I or College II core requirements. If you entered UMB as a Freshman or Transfer student in the Fall of 1979 or after, you must meet the new CAS core requirements.

2) Q. I already know what I want to learn here. Why do I have to take a lot of courses that will be useless to me?

A. The CAS Senate, composed of both student and faculty representatives, approved the new core curriculum because they agreed that educated people must know about other areas of knowledge in addition to their own specialties. Many of the persistent human concerns and problems can be approached from a variety of viewpoints, and an understanding of these different ways of knowing should lead to an increase in tolerance and sensitivity to others. Such breadth of understanding should also encourage people to use complex and well-informed thinking in approaching problems and issues.

3) Q. Why is there a series of specific courses, instead of a distribution requirement?

A. It was believed that the goals of the core could be best achieved by creating a core curriculum made up of a limited number of courses that were specially designed to introduce entire disciplines and ways of knowing, and which were appropriate for non-majors (as well as majors in some cases). Core courses are also limited in size, and they offer special emphasis on the skills considered crucial for success at the University: writing, critical thinking, and math.

4) Q. How do I know which are the core courses?

A. Only courses or sections with C in front of the number are core courses (for example, Anthro C102). At preregistration each semester a list of the core courses offered the next semester will be available.

5) Q. How many core courses do I have to take?

A. First, you need 2 semesters of Freshman writing (Eng. 101 and 102). In addition, you will have to take 12 core courses selected from at least 6 of the 7 core areas (Historical and Cultural Studies, Philosophical and Humanistic Studies, Social and Behavioral Studies, Natural Sciences, The Arts, Mathematics and Computer Language, and Foreign Languages). For one area you can count up to 3 courses toward the core. For the rest, only 1 or 2 courses can be counted toward the core. Three core courses must be at the intermediate level (numbered 200 or above).

6) Q. Can I take <u>more</u> than 3 courses at the intermediate level?

A. Yes, but you must be sure to take at least three.

7) Q. Can I take any of these core courses Pass/Fail?

A. Yes, you may take one course each semester Pass/Fail. Be sure to check with your major department, though, to find out whether the course can be counted toward your major.

8) Q. I'm a transfer student. Do any of the courses from my previous college count toward the core?

A. When you were admitted you received a form from the Admissions Office which listed those courses which counted toward the core by area.

9) Q. I've just switched from CMPS (or CPCS). Can I count any of those courses toward the CAS core?

A. These courses are counted in the same way that other transfer credits are.

10) Q. I'm a foreign student, and English is not my first language. Are there any differences in the core requirements for me?

A. No. The requirements are the same. You may, of course, demonstrate intermediate proficiency in your native language and waive two language course requirements.

11) Q. Can any of the core requirements be waived?

A. The writing requirement can be waived by passing an English placement exam at the appropriate level. Two Foreign Language core courses can be waived if you can present evidence, in the form of placement scores or transcripts, that you have intermediate proficiency in a foreign language. Two Math core courses can be waived if you can prove that you have completed work equivalent to college calculus (Math C140, C141). You can do this through the math placement test or through course work taken elsewhere. The Writing Proficiency Examination cannot be waived.

12) Q. What if I do get a Math or Foreign Language waiver?

A. If you receive one waiver, you will only need to take 10 core courses, and only 1 must be intermediate. If both Math and Foreign Language are waived, you only need to take 8 core courses, and none have to be intermediate. Simply think of your waiver as satisfying the requirement of two courses in one area.

13) Q. Can I take courses in 2 different languages to meet the Foreign Language requirement?

A. If you start a language at the introductory level you must do the equivalent of two semesters in order to get core credit. However, a course in any language will count toward the core requirement if it is at least at second semester level.

14) Q. How can I tell which courses are intermediate?

A. All of the courses numbered in the 200's are intermediate. In addition, Math courses 138 and above are intermediate.

15) Q. Where can I get more information about the core curriculum?

A. Office of Academic Support and Advising - 020/3/625

ELEMENTARY EDUCATION

The program offered by the Department of Elementary Education is designed to prepare teachers for the nation's pre-school, kindergarten and elementary schools.

This program has Interstate Certification Compact approval. All students successfully completing this program are eligible for certification under a reciprocity agreement with thirty-six states and the District of Columbia. This approval is recognized by the National Association of State Directors of Teacher Education and Certification (NASDTEC).

All the core courses, including the three pre-practicum experiences, must be taken at the University and cannot be transferred. These practica must be completed before student teaching.

STUDENTS FROM CAS, CMP AND CPCS MAY WISH TO CONSIDER EDUCATION AS A DOUBLE MAJOR.

MEDICAL TECHNOLOGY PROGRAM

The medical technologist is a professional member of a health care unit concerned with the diagnosis of medical problems. The medical technologist uses modern clinical instrumentation and techniques to perform scientific tests in the laboratory. At career entry the medical technologist is expected to perform complex analysis requiring a thorough understanding of sophisticated procedures, and to assume responsibility for accurate results. The technologist has been formally trained in the fields of clinical chemistry, microbiology, hematology, blood banking, serology and urinalysis.

Program

The curriculum in medical technology has been developed to prepare the student for a fourth year of professional training in an approved hospital school. This type of program is referred to as a "3 + 1 program" by the National Accrediting Agency for Clinical Laboratory Sciences and is approved by the Council on Medical Education of the American Medical Association. Each student completing the program earns the Bachelor of Science in Medical Technology (BSMT) degree.

Course of Study

The student must meet the core requirements of the College of Arts and Sciences and must also follow a program which has been approved by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS).

Chemistry - a minimum of 16 semester hours to include organic chemistry or biological chemistry. Quantitative and physical chemistry are recommended.

Biology - a minimum of 16 semester hours to include study in microbiology physiology, anatomy, histology and genetics. Study in immunology is required.

Mathematics - at least one course is required. Minimum requirements are met by courses recognized as prerequisites for admission to physics courses. Courses in statistics and physics are required. All courses must be acceptable toward a major in the fields of biology or chemistry. Survey courses are not acceptable.

By the time the student enters the clinical internship year, he or she will have taken 90 semester hours of college credit including a concentration in biology. The student will be given 30-32 semester hours of credit for the year of professional training. This practicum in the laboratory will involve study in clinical chemistry, clinical hematology, clinical bacteriology, mycology, virology, parasitology, immunology, serology and hematosis.

Career Opportunities

The registered medical technologist may find employment in many related health fields. In hospital laboratory work, there are many areas of specialization. There are opportunities for employment as a research assistant, as a supervisor, or as a teacher. The medical technologist is also a professional worker in such places as medical centers, clinics, public health agencies, pharmaceutical houses, and research institutions.

NUCLEAR MEDICAL TECHNOLOGY

Three years are spent in course work at the University which during this time the student will acquire the theoretical background needed to complete the fourth clinical year and to meet the requirements for the baccalaureate degree.

The program is affiliated with hospitals which have American Medical Association and/or American Registry of Radiologic Technologists approval. At the beginning of the sixth semester the student will apply, through the program chairperson, for hospital affiliation. A 2.0 in all science courses will be minimal for consideration and recommendation for appointment to a hospital position. Approval and acceptance by the hospital coordinator is also required.

When the fourth year is satisfactorily completed (evaluation will be made by the hospital staff and the director), the student will be eligible to receive with B.S. degree with a major in Nuclear Medical Technology. Graduates are then eligible for examination for certification by the Registry.

NURSING

THE NURSING MAJOR IS AN UPPER-DIVISION SEQUENCE CONSISTING OF FIFTY-FOUR (54) SEMESTER HOURS OF NURSING COURSES. THE PROGRAM IS FULLY APPROVED BY THE MASSACHUSETTS BOARD OF REGISTRATION WHICH AUTHORIZES THE OPERATION OF NURSING PROGRAMS. THE NURSING MAJOR IS ACCREDITED BY THE NATIONAL LEAGUE FOR NURSING, THE OFFICIAL ACCREDITING BODY FOR SCHOOLS OF NURSING.

PRE-NURSING

ALL STUDENTS MUST MEET UNIVERSITY REQUIREMENTS TO ENTER THE UPPER-DIVISION MAJOR. STUDENTS WILL SELECT FOUR PHYSICAL SCIENCE OFFERINGS AND FOUR SOCIAL SCIENCE COURSES PRIOR TO ENTERING THE NURSING MAJOR. THE OTHER COURSES TAKEN WILL MEET THE REQUIREMENTS OF THE COLLEGE OF ARTS AND SCIENCES. ALL STUDENTS MUST KNOW ANATOMY BEFORE TAKING THE UPPER-DIVISION NURSING SEQUENCE.

UPPER-DIVISION NURSING

STUDENTS ENTERING THE UPPER-DIVISION MAJOR MUST PRESENT THEIR MALPRACTIVE INSURANCE AND THEIR COMPLETED PHYSICAL EXAMINATION NO LATER THAN JULY 1, BEFORE ENTERING THE MAJOR. STUDENTS WHO DO NOT COMPLY WILL BE DENIED ADMISSION TO THE NURSING MAJOR, AND AS OF JULY 1 WILL BE REMOVED FROM THE LIST OF INCOMING STUDENTS.

ALL STUDENTS INTERESTED IN THE NURSING PROGRAM SHOULD CONTACT MARGARET ANDERSON, ACTING CHAIRPERSON.

PHYSICAL EDUCATION, RECREATION AND DANCE

Students who major in Physical Education must choose one of the following areas of specialization:

Athletic Training

Physical Education in Business and Industry

Physical Education and Recreation for the Handicapped

Recreation

Health

Dance

Teaching Physical Education in the Elementary School

Teaching Physical Education in the Secondary School

Students may choose to minor in one of the following areas:

Coaching

Physical Education and Recreation for the Handicapped

Recreation

Health

Dance

Teaching Physical Education in the Elementary School

Teaching Physical Education in the Secondary School

Students majoring in Physical Education should follow the Core requirements for CAS for the year 1982-1983.

Any student who wishes to consult with a faculty advisor should call 731-3300 Ext. 256 (Professor Gail Arnold) or Ext. 375 (Professor Saitta) to make arrangements for an appointment.

SECONDARY EDUCATION

The program offered by the Department of Secondary Education is designed to prepare teachers for the nation's middle and secondary schools.

This program has been approved by the Interstate Certification Team. All students successfully completing this program are eligible for certification under a reciprocity aggreement with thirty six states and the District of Columbia. This approval is recognized by the National Association of State Directors of Teacher Education and Certification (NASCTEC).

Students must complete twenty-one semester hours of credit plus one semester of student teaching under the supervision of the Department of Secondary Education. This program includes three pre-practicum experiences which are a part of Sec Ed 333, Sec Ed 336 and Sec Ed 338 . These practica must be completed prior to student teaching.

Students must also complete a course in Educational Psychology (Psych 245).

This program is designed to meet the revised Massachusetts Certification Standards.

English majors wishing to teach must take Methods of Improving Reading Skills in the Secondary Schools (Sec Ed 341), History of the English Language (Engl 342).

REGIONAL STUDIES

The Department of Regional Studies provides students with a flexible, integrated approach to learning and research in the man-environment-interaction field. Students may develop programs leading to teaching careers, entrance to graduate schools, or positions with private or public agencies. The department encourages students to formulate individualized programs of study to maximize meaningful learning and research experiences consonant with their academic-professional goals.

The fields of concentration are:
- Regional Cultural Studies
- Regional Physical Studies
- Regional and Urban Planning Studies

Each program, developed under departmental guidance must meet the following criteria:

a. The student must complete a designated 100 level course (3 semester hours credit) and either RS401 Field Work, RS450 Seminar, RS475 Urban Seminar or RS490 Special Topics (3 semester hours credit).

b. The student must complete at least half of the total number of semester hours required for the major or minor within the Department of Regional Studies.

c. The program of Study must lead to a balanced, integrated experience of learning and reasearch.

CULTURAL STUDIES

The regional cultural studies program is organized with geography as the core discipline. The focus is upon the spatial characteristics of changing patterns of population, human settlement, political organization, regional economic development and transportation networks. Major regions of the world, particularly Latin America, are systematically considered. Students are encouraged to explore their own areas of interest with their department advisors and to develop related concentrations in such fields as education, history, economics foreign languages, anthropology, archeology or any of the other programs offered by the Department of Regional Studies.

PHYSICAL STUDIES

The regional physical studies curriculum is designed to introduce students to geology and oceanography. Broadly speaking, students with this background may be classified as earth scientists and are concerned with the history, composition and characteristics of the earth's lithosphere, hydrosphere and atmosphere. Some earth scientists do basic reasearch to increase scientific knowledge while others solve practical problems. Geologists, for example, explore for new sources of oil, other fuels and ores. Oceanographers examine marine resources and other marine phenomena. Meteorologists use scientific knowledge to forecast the weather. Many earth scientists teach in colleges and universities, while others administer scientific programs and operations. Persons trained in this discipline may also expect employment opportunities in the broad field of environmental planning.

PLANNING

The regional and urban planning program is designed to provide students with a comprehensive background in the planning field. A grauduate of the program is qualified to begin a career in planning or to start developing one of the more specialized aspects of planning through on-the-job training or further study in graduate school. Students are expected to design their programs in consultation with their advisors and can very effectively combine a major in regional and urban planning with study in other disciplines currently offered at the University. The development of a concentration in either regional cultural or regional physical studies, economics political science, sociology or law enforcement can give the student added depth. However, the program offers the basic planning skills and techniques necessary to such traditional specializations as community planning, housing, redevelopment, public health planning or transportation planning.

TEACHING

Students completing the prescribed program in either either regional cultural studies or regional physical studies meet Commonwealth of Massachusetts and NASDETC teaching certification requirements in geography and earth science. NASCETC certification covers 31 particiating states including Massachusetts.

COLLEGE OF MANAGEMENT AND PROFESSIONAL STUDIES

REGISTRATION INFORMATION

Please be advised:

1. Only CMPS students may register for CMPS courses.

2. Junior or Senior standing in CMPS is required of all students registering in 300-and 400-level CMPS .

3. Current CMPS schedule information is posted at the Registrar's Office on the Huntington Avenue Campus, and on bulletin boards outside the CMPS Office of Student Services (020/3/414) and CMPS department offices at the Harbor Campus.

ADVISING FOR STUDENTS

OF THE

COLLEGE OF MANAGEMENT AND PROFESSIONAL STUDIES

1) All students should see an academic adviser during Advance Registration to discuss their programs and have their forms signed.

   a) Students may either make appointments with their assigned advisers OR visit the walk-in advising centers in each department. Hours for walk-in advising will be posted in each department.

   b) All CMPS students who have not been assigned advisors should plan to attend one of the following advising sessions sponsored by Student Services in room 020/3/415

      Wednesday, May 5, 2:30 p.m.
      Thursday, May 6, 9:30 p. m.
      Monday, May 10, 5:30 p. m.
      Tuesday, May 11, 10:30 p.m.
      Tuesday, May 11, 5:30 p.m.

   c) The Office of Student Services (020/3/414) will be open 9:00 a.m. - 6:30 p.m. May 3-6 and 10-13, and until 5:00p.m. on May 7 for students who are seeking advising and are unable to contact their advisers.

2) All students must have their advance registration forms stamped or signed by a CMPS advisor.

3) Registration forms should be returned to the Registrar's Office at the Huntington Avenue Campus or the Office of Registration and Records at the Harbor Campus by May 13, 1982.
